ABOUT ME

As a natural problem solver, I thrive in fast-paced environments where I can think on my feet and adapt quickly. My strong communication skills allow me to collaborate effectively with diverse teams, ensuring seamless coordination and efficient workflow. I'm a firm believer in the power of teamwork and always strive to foster an inclusive and collaborative atmosphere.

PROJECTS

Image Carousel

- Designed and developed an image carousel using **HTML, CSS and Javascript** that allows user to easily navigate through a collection of images.
- Image carousels are designed to capture users' attention and keep them engaged with your content.
- The rotating nature of the carousel encourages users to interact with it by clicking or swiping through the slides.

Expense Tracker

- Designed and Developed expense tracker is a tool or application that helps individuals or businesses keep track of their financial transactions and manage their expenses effectively
- An expense tracker helps you create and stick to a budget by recording and categorizing your expenses.

Random Choice Picker

- Designed and Developed a user friendly random choice picker using HTML, CSS and Javascript that allows user to easily generate random selections from a predefined set of options.
- This is the most basic form. You write down the options on pieces of paper, put them in a hat or container, mix them up, and then draw one at random

Quiz app

- Designed and Developed a user friendly quiz app using HTML, CSS and Javascript that allows user to easily pay random quiz from a predefined set of options.Provide users with a platform to test their knowledge on various topics.
- Enhance user learning and entertainment through informative questions.
